A LETTER FROM THE PRESIDENT

Welcome to Global University!

All of us here at Global are pleased to learn of your interest in advancing your training. We are delighted that you are seeking to prepare yourself for service in God's harvest field. Our catalog provides information concerning who we are, our mission, history, policies, and procedures, as well as our various plans of study. We trust you will identify a program of study to help you prepare for God's call on your life. Feel free to contact us with any questions you may have.

A unique aspect of our program is the emphasis on applied learning and ministry through our service learning requirement (SLR). This requirement allows learners to move more rapidly from theory to practical application of what they are learning. In other words, learners benefit from the integration of academic rigor with practical application throughout their studies.

Global University is composed of five schools providing a seamless approach to study, ranging in academic level from certificates (initial evangelism and discipleship courses) through graduate degrees. The five schools are School for Evangelism and Discipleship, Berean School of the Bible (offering adult continuing education courses to equip people for church leadership), School for Ministry Development (offering an Associate of Arts in Church Ministry that fulfills the educational requirements for credentialing with the General Council of the Assemblies of God through the ordained minister level), Undergraduate School of Bible and Theology (offering certificates and diplomas and associate of arts and bachelor of arts degrees), and Graduate School of Theology (offering master of arts, master of divinity, and doctor of ministry degrees). Catalogs for each school are available on our website at www.globaluniversity.edu.

Global University's learners benefit not only from increased knowledge through studying course content but also from spiritual growth and increased discipline. Our instructional design helps them gain skills for a lifetime of learning, service, and ministry. Students and alumni fill positions of ministry as teachers, pastors, and missionaries. Others serve as local, district, and national church leaders. They actively work in both open and sensitive locations, fulfilling God's call on their lives to impact eternity where they are and wherever God leads them.

When studying with Global University, you will not be studying alone. Instead, you will join students studying in literally every time zone of the world. We operate through a worldwide network of more than 230 offices serving 500,000 students. We are committed to equipping people for service in churches, schools, and other ministries. As you study, rest assured our extensive university stands ready to assist you in any way we can.

God bless!

Gary L. Seevers Jr., PhD
President

A LETTER FROM THE PROVOST

Greetings from the International Office of Global University!

I enjoy the rich pleasure of serving as the Chief Academic Officer for the global programs of the university. During my time serving the university, I have come to appreciate both the diversity and the unity that exists within the Global University family. Every context presents unique challenges and brings opportunities to the task of teaching and learning. As I meet our Global students and alumni, I am impressed with their commitment to excellence in ministry in all cultural situations. In these effective ministries and leaders, one sees the intersection of God's call, their commitment, and a Global University education. The results are astounding: people are saved, churches are started, parachurch ministries are established, and bodies are healed. The Lord operates through thousands of men and women who have come through Global University's programs.

Global University allows you to start wherever you are in your own educational journey and pursue a broad range of learning goals. Each of the five schools of Global University provide opportunity for growth as a follower of Christ and as a Christian leader. Do you want foundational instruction as a follower of Christ and a Christian leader in training? The School for Evangelism and Discipleship's Christian Life and Christian Service series of courses would benefit you. Do you want to study Scripture for a ministerial career, a lay leadership role in your church, or your own spiritual enrichment? The Berean School of the Bible's adult continuing education courses and programs will serve you well. If you plan to seek ministerial credentials with the Assemblies of God, take a look at the School for Ministry Development, our newest school. Do you want an accredited undergraduate certificate, diploma, associate of arts degree, or bachelor of arts degree? Check out the programs offered by the Undergraduate School of Bible and Theology. Are you prepared for advanced studies? The Graduate School of Theology offers master of arts degrees, a master of divinity degree, and a doctor of ministry degree. Global is one university with five schools, so you will have a wide range of options from which to choose. Whichever program you select, you can be sure it will integrate faith and learning from a Pentecostal, evangelical perspective.

Our name—Global University—accurately describes us as a worldwide distance-learning school. Our regional accreditation with the Higher Learning Commission assures you of a quality education. As you enter studies with Global University, you join a student body in every time zone and nearly every country of the world. You can study where and when you want at extremely affordable costs. You will have access to faculty through a variety of means, and our online library resources provide the opportunity to investigate a subject as deeply as you wish.

Welcome to the Global University community. We are students, faculty, staff, and administrators who are all involved in "impacting eternity by reaching the lost and training the found—everywhere."

May God's favor be with you,

David L. De Garmo, DMin
Provost

A LETTER FROM THE DEAN

Our goal for Global University's Graduate School of Theology is to provide a level of training that is both academically challenging and saturated with the leading of the Holy Spirit so our graduates will be educated and inspired to perform their callings with servants' hearts and in the power of the Holy Spirit.

All faculty and staff of the Graduate School of Theology are committed to serving our students as we all learn and grow with them in godliness and Spirit-led obedience to Jesus. We embrace our great privilege of contributing to training God's kingdom ambassadors.

One distinctive of our program is that it allows our students to study while in ministry rather than to study for ministry. Most of our students continue in a full-time position while they study. They find that our academic format not only adapts to their schedules, but also enhances their ministries.

I encourage all qualified ministers to consider one of our graduate degree or certificate programs. We also welcome students who want to study for personal enrichment.

If you have any questions that are not answered in this catalog, please contact the director of the Graduate Studies Office from which you received this catalog. Best wishes in your pursuit of fulfilling God's will for your life.

Sincerely,

A handwritten signature in cursive script that reads "Randy Hedlun".

Dean, Graduate School of Theology

GENERAL INFORMATION

Global University (GU) utilizes tools of educational technology to expand the resources of the church. GU courses are applicable for distance-learning instruction, classrooms, learning groups, and individual study. Courses are developed with the help of qualified writers from many nations and distributed around the world in many languages. This contributes to fulfilling GU's motto: "Impacting eternity by winning the lost and training the found—everywhere!"

Mission

Global University is a Christian university in the Pentecostal tradition that:

- integrates education and service through a worldwide network for student support.
- provides access to ministerial training from adult continuing education to the graduate level.
- produces curricular materials in multiple languages.
- serves the local church and Christian community through evangelism, discipleship, and leadership training via nonresidential distributed learning methods.

History

Global University has a distinguished heritage spanning seven decades and encompassing the achievements of two distance-learning institutions: ICI and Berean University.

Global University now has five schools: (1) School for Evangelism and Discipleship, (2) Berean School of the Bible, (3) School for Ministry Development, (4) Undergraduate School of Bible and Theology, and (5) Graduate School of Theology. Students worldwide enroll in all levels of study. Global University works with Assemblies of God World Missions, US Missions, and other divisions of the General Council.

Doctrinal Statement

The doctrinal position of Global University is expressed in the following statement of faith. We believe:

- the Bible is the inspired and only infallible and authoritative written Word of God (2 Timothy 3:16).
- there is only one true God, revealed in three persons: Father, Son, and Holy Spirit (commonly known as the Trinity) (Deuteronomy 6:4; Matthew 28:19).
- in the deity of our Lord Jesus Christ, in His virgin birth, in His sinless life, in His miracles, in His vicarious and atoning death, in His bodily resurrection, in His ascension to the right hand of the Father, in His personal, future return to this earth in power and glory to rule a thousand years (John 1:1).
- in the Blessed Hope—when Jesus raptures His Church prior to His return to earth (the second coming). At this future moment in time all believers who have died will rise from their graves and will meet the Lord in the air, and Christians who are alive will be caught up with them, to be with the Lord forever (Titus 2:13; 1 Thessalonians 4:17).
- every person can have restored fellowship with God through salvation (trusting Christ, through faith and repentance, to be our personal Savior) (John 14:6).
- regeneration by the Holy Spirit is absolutely essential for personal salvation (Titus 3:5).
- in water baptism by immersion and Holy Communion (Matthew 28:19).
- divine healing of the sick is a privilege for Christians today and is provided for in Christ's atonement (His sacrificial death on the cross for our sins) (1 Peter 2:24).
- the baptism in the Holy Spirit is a special experience following salvation that empowers believers for witnessing and effective service, just as it did in New Testament times (Acts 2:4).
- sanctification initially occurs at salvation and is not only a declaration that a believer is holy, but also a progressive lifelong process of separating from evil as believers continually draw closer to God and become more Christlike (Galatians 5:16–25).
- in the resurrection of both the saved and the lost, the one to everlasting life and the other to everlasting damnation (Revelation 20:11–15).

- in the church, which is the body of Christ, and its mission to be the agency of God to evangelize the world, worship God, build the body of Christ, and demonstrate God's love and compassion (Mark 16:15–16; 1 Corinthians 12:13; 1 Corinthians 14:2–3; Psalm 112:9).
- in a divinely called and scripturally ordained ministry for the fourfold mission of leading the church: reaching, planting, training, and serving.

University Faculty

Individuals who serve Global University as faculty are included in the following two categories:

Resident Faculty

Global University resident faculty are those academically qualified individuals serving at the International Office whose activities consist primarily of writing, developing, and facilitating courses.

Adjunct Faculty

Adjunct faculty are academically qualified individuals throughout the Global University network who periodically write, facilitate, and evaluate Global University courses in field settings or serve as tutors for students studying independently with the university. Many hold doctorates in their fields, and all hold at least a master's degree. Those who serve as faculty for the Graduate School of Theology hold an earned doctoral or other terminal degree.

UNIVERSITY STANDARDS

Basic Standards of Academic Integrity

Registration at Global University requires adherence to the university's standards of academic integrity. Many of these standards may be intuitively understood and are not listed exhaustively; the following examples represent some basic types of behavior that are unacceptable:

1. Cheating: (a) using unauthorized notes, aids, or information when taking an examination; (b) submitting work done by someone else as your own; (c) copying or paraphrasing someone else's work and submitting it as your own.
2. Plagiarizing: submitting someone else's work, claiming it as your own, or neglecting to give appropriate documentation when using any kind of reference material. Plagiarism, whether purposeful or unintentional, includes copying or paraphrasing materials from a study guide, textbook, or any other published or unpublished source. Words, thoughts, or ideas taken from any source must be properly documented according to the school's particular *Global University Form and Style Guide*.
3. Fabricating: falsifying or inventing any information, data, or citation.
4. Obtaining an unfair advantage: (a) stealing, reproducing, circulating, or otherwise gaining access to examination materials prior to the time authorized by the instructor or examination supervisor; (b) unauthorized collaboration on an academic assignment; (c) retaining, possessing, using, or circulating previously given examination materials where those materials clearly indicate they are to be returned to the examination supervisor or to the Global University offices at the conclusion of the examination.

AI and Its Role in Global University's Degree Programs

Artificial intelligence technology is developing very rapidly and offers many exciting and enticing opportunities to students that can save time and effort in completing assigned academic work. However, most of the contemplated uses of AI technology to complete academic work actually undermines the very purpose and value of education and prevents the development of scholarship skills and the acquisition of knowledge. The misuse of AI technology, therefore, threatens both the legitimacy of education itself as we know it and the competence of graduates when they leave school. Therefore, the following policy is adopted as a first version by Global University regarding the use of generative Artificial Intelligence software, such as LLMs (e.g., ChatGBT, PaLM API and MakerSuit):

1. Using any AI LLM to create or improve content for any academic assignment is forbidden without prior written

approval from the faculty facilitating the related course.

2. Faculty may grant written approval for AI LLM use in response to a written request submitted by a student, if the request includes
 - a. Identification of the course and assignment for which the AI LLM will be used
 - b. A detailed description of how the AI LLM will be used, including the anticipated results of this use and how it will be integrated into fulfilling the assignment's requirements
 - c. A description of how any information acquired through generative AI will be verified
 - d. An explanation of how AI LLM use will enhance the learning experience and fulfill learning objectives in an academically legitimate way
3. Unapproved use of AI software in completing academic assignments will be considered misuse and will result in a failing grade for that assignment.
4. Faculty are instructed to disapprove all use of AI software unless a convincing and well informed rationale is presented by the student regarding the educational value of its limited use.
5. This policy is a first iteration and will be revised as AI technology continues to develop along with its potential use and misuse in the educational environment.

Disciplinary action for not maintaining standards of academic integrity range from lowering a grade for a paper to dismissal from the program, depending on the severity of the offense.

Code of Conduct

Global University is a Christian educational institution aiming to equip students to fulfill God's calling on their lives. Christian conduct is expected. While Global University reaches many cultures around the world, it is understood that some practices acceptable in one culture may not be acceptable in another.

As Christians we look to the Scripture to guide our conduct. Students are expected to conduct themselves according to biblical principles of behavior. Examples of such principles are found in Romans 12:9–21; Galatians 5:22–23; and Ephesians 4:1–3, 25–32. The Code of Conduct also applies to verbal and written communication with Global University representatives, faculty, staff, and students. Furthermore, it extends to all electronic communication, including threaded discussions and email with faculty and students.

Violation of the Code of Conduct may result in disciplinary action, including dismissal from the program. Global University also wants each student to be aware of our Statement on Marriage, Human Sexuality, and Gender Identity that can be viewed at <https://globaluniversity.edu/university-standards/>.

Disability and Academic Accommodations

Global University is committed to the provision of reasonable accommodations for students with disabilities, as defined in the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and state and local requirements. Students who qualify for accommodations are required to submit appropriate documentation with the Student Success Center. Your request will be considered if it:

- Is based on documentation that meets GU guidelines.
- Does not compromise essential requirements of your course or program.
- Does not impose financial or administrative burden upon GU beyond that which is deemed reasonable.

Submit your request to success@globaluniversity.edu. The Academic Success team will follow up with you to gather all required documentation. The university's director for the Student Success Center and the dean of the school will review the submitted documentation. You will be notified via email if your request is granted or denied within 30 days of receipt of all required documentation. If you are denied services, you may file an appeal within 30 days of the decision.

Due Process of Student Rights

In all cases involving academic dishonesty, the student charged or suspected shall, at a minimum, be accorded the following rights:

1. Prompt investigation of all charges of academic dishonesty, to be conducted, insofar as possible, in a manner that prevents public disclosure of the student's identity. Such investigation may include informal review and discussion with an official of the school prior to bringing a charge, provided that such review does not compromise the rights of the student in the formal process.
2. Reasonable written notice of the facts and evidence underlying the charge of academic dishonesty and of the principle(s) of academic integrity said to have been violated.
3. Reasonable written notice of the procedure by which the accuracy of the charge will be determined.
4. Reasonable time, if requested, within which to prepare a response to the charge.
5. A hearing or meeting at which the student involved may be heard and the accuracy of the charge determined by a neutral decision maker.
6. Review of an adverse initial determination, if requested, by an appeals committee to whom the student has access in person. Generally, implementation of sanctions will be suspended until all appeals made by the student have been exhausted.
7. Final review of an unsuccessful appeal, if requested, by the president or an advisory committee designated by the president.

Policy for Filing Student Complaints

Global University assures the public that its philosophy is to be responsive to any student complaint. Historically, any complaints received have been resolved to the student's satisfaction. A student seeking to file a complaint or grievance should follow the steps outlined under "Tracking and Addressing Student Complaints." Global University will do everything possible to resolve the complaint expeditiously. If the student wants to contact higher authorities, he or she may do so at the state and accrediting agency levels, as described below.

The Missouri Department of Higher Education (MDHE) serves as a clearinghouse for postsecondary student complaints. The MDHE complaint policy contains information and instructions for filing a formal complaint. The policy provides that a student seeking to file a complaint with the department must first exhaust all formal and informal avenues provided by the institution to resolve disputes. The MDHE complaint policy can be accessed at <http://dhe.mo.gov/documents/POLICYONCOMPLAINTRESOLUTION.pdf>.

Global University's regional accrediting agency, the Higher Learning Commission (HLC), can also receive student complaints. Information is available at: <https://www.hlcommission.org/Student-Resources/complaints.html>.

The HLC expects complaints and grievances to be first resolved at the institution level. Complaints should only be directed to the HLC if they are deemed to affect an institution's accreditation.

Global University has been approved as a participating institution in the National Council for State Authorization Reciprocity Agreements (NC-SARA). If, after following the sequence referred to above, a complaint is not resolved to the student's satisfaction, and if the state in which they live is a SARA member state (go to www.NC-SARA.org, click on "states"), they may appeal to the portal agency of their state (see <http://nc-sara.org/content/state-portal-agency-contacts>). The SARA complaint process can be found in the SARA Policies and Standards at <https://nc-sara.org/student-complaints-process>.

Tracking and Addressing Student Complaints

Global University takes complaints and grievances seriously. The Student Services Department of GU's Academic Affairs Office maintains and monitors a complaint or grievance file. Complaints received usually concern two categories: (1) course content, or (2) the course delivery and support system.

- Complaints relating to course content are referred to the University Materials Development (UMD) Department and to the course professor. A student representative will contact the student with an answer to the student's question(s) or a solution to the student's problem.

- Complaints regarding the delivery and support system are referred to the Student Services Department. A student representative will contact the student to resolve the difficulty. In some cases, this prompts the creation of new policies or procedures to improve the delivery system.

In more difficult or complex situations, especially those problems spanning more than one department, the complaint is referred to the provost. As necessary, the Academic Affairs Committee will also become involved to resolve student complaints in a timely and satisfactory manner.

A student can file a grievance with Global University by choosing any one of the following contacts:

1. A student may contact a Global University faculty member or network office staff member by email, phone, fax, post/mail, or in person. Often, problems are easily resolved at this level.
2. A student may contact the Student Services Department of Global University by email, phone, fax, post/mail, or in person. Student Services personnel are trained to resolve student concerns.
3. A student may contact any administrator of Global University by email, phone, fax, post/mail, or in person. In these cases, the matter typically requires a period of investigation in order to be resolved.

Once a concern, complaint, or grievance is received, every effort will be made to resolve the issue quickly. Should a student not be satisfied with the resolution, they may appeal the decision to the International Office of Global University, directly to the Provost's Office. Should a student not be satisfied with the resolution, the student can contact the Provost's Office and request that the issue be addressed by the Global University Academic Affairs Committee. A decision by the Academic Affairs Committee will be deemed final.

Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. These rights include:

1. The right to inspect and review education records within 45 days of the day Global University receives a request for access. Students should submit to the registrar a written request that identifies the record(s) they wish to inspect. The registrar will make arrangements for access and notify students of the time and place the records may be inspected. In place of inspecting the record(s), students may request that records be copied and mailed to them. In this case, students will pay postage and a copy fee of 15 cents (USD) per page.
2. The right to request the amendment of education records students believe are inaccurate or misleading. Students may ask the university to amend a record they believe is

inaccurate or misleading. They must write to the registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested, the university will notify students of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to students when they are notified of the right to a hearing.

3. The right to request in writing that certain directory information only be disclosed with the student's written consent. Unless otherwise requested, directory information such as the student's name, mailing address, dates of attendance, enrollment status, graduation status, and other institutions attended may be released without written consent. Non-directory information such as student ID number, Social Security number, date of birth, email address, phone number, and grades may only be released with the student's written consent except where FERPA authorizes disclosure without consent. Exceptions include disclosure to federal, state, and local authorities as well as school officials with legitimate educational interest. A school official is a person employed by the university in an administrative, supervisory, academic, research, or support staff position; a person or company with whom the university has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill their professional responsibility.

The student has the right to file a complaint with the US Department of Education concerning alleged failures by GU to comply with the requirements of FERPA. Contact information for the office that administers FERPA is as follows: Family Policy Compliance Office; Department of Education Building; 400 Maryland Avenue, SW; Washington, DC 20202-5920; Phone: 1-800-USA-LEARN (1-800-872-5327).

Students with technology and internet access may submit assignments electronically and take proctored exams online. Many courses are available for PDF download. Students without access to technology may acquire printed materials containing everything needed to complete their courses. Self-paced, independent learners may collaborate with other students using GU's online learning tools and social media.

For further information about the use of technology with GU courses and their availability in electronic format, visit Global University online at www.globaluniversity.edu.

Library Resources

The Global University Library, located at the International Office in Springfield, Missouri, holds resources that support the curriculum of GU programs and may be utilized for general research. It offers more than 25,000 physical volumes, including books, reference materials, periodicals, maps, microfiche, audio and video materials, and vertical files.

For undergraduate and graduate students, CREDO Reference, Academic Search Elite, and American Theological Library Association (ATLA) databases, which provide access to thousands of e-books, peer-reviewed journals, and general reference resources, are available via the Library website at <https://libguides.globaluniversity.edu/librarymain/>.

Due to lack of research requirements, Berean School of the Bible students cannot access proprietary databases. However, thousands of freely available resources are available through the Library website.

Students may also direct research questions to a reference librarian using the "Ask-A-Librarian" feature. Global University is continually expanding its online information services to support and enhance the distance learning experience.

Graduate School of Theology

General Information

PROGRAM OBJECTIVES AND DESIGN

Global University's graduate programs, which are provided by the Graduate School of Theology, are designed to equip students with skills and methodologies to be lifelong learners as they participate in individual research, personal scholarship, and practical application that prepares them to do advanced, in-depth, specialized study of the Bible and related subjects at the post-baccalaureate degree level.

Global University reserves the right to revise all announcements contained in this catalog and, at its discretion, to make reasonable substitutions or changes in requirements to improve or upgrade academic programs.

Mission and Goals of Degree Programs

The twofold mission of the Graduate School of Theology is to accomplish the following overarching goals:

1. Train leaders for the various ministries of the church by providing theologically sound graduate-level degree courses that furnish students with intellectually broad and deep learning activities and experiences that are responsive to their spiritual and intellectual needs.
2. Equip leaders to minister, evangelize, and teach the Pentecostal message using methods that are culturally relevant and designed to integrate faith and practice.

In the process of completing a graduate degree program with Global University, the student is guided to

1. further develop skills to communicate the gospel message through various styles of written and oral dialogue;
2. grow personally, professionally, and spiritually as he or she becomes a more effective leader within the spheres of home, church, and society;
3. demonstrate awareness and understanding of his or her cultural heritage and that of others; and
4. interact with diverse cultures in a global context.

Additionally, the doctor of ministry student will be guided to

1. exhibit continual growth in spiritual maturity,
2. integrate scholarship into ministry,

3. develop ongoing ministerial relationships, and
4. display proficiency in scholarly research and critical analysis.

Objectives of Graduate Degree Programs

Graduate degree programs represent a distinct configuration of courses that enables a student to align his or her academic study closely with personal ministry goals and interests to achieve specific objectives. Students who desire to pursue further studies will find the master of arts and master of divinity degree programs to be foundational to both research and doctoral level studies. The doctor of ministry degree program will build on that foundation to help students advance to higher levels of scholarly research and critical analysis. Program-specific objectives are listed with each program in this catalog.

Design of Degree and Certificate Programs

Global University graduate degree and certificate programs are designed to allow students to earn master of arts, master of divinity, and doctor of ministry degrees and graduate studies certificates through a structured distance-education format by utilizing mentors and printed and electronic materials to guide students in their chosen courses of study and scholarly research. Students are encouraged to think reflectively on biblical truth and ministry practices and to communicate the gospel effectively, both orally and in writing, in the specific culture in which they live.

Graduate degrees and certificates are equally accessible and affordable for those who are preparing for ministry and those who are already in full-time ministry. The curriculum is designed to blend a life-centered and pragmatic approach with academic rigor. The curriculum allows for maximum adaptability to a multicultural student body, meeting the needs of churches in a variety of different cultures. Global University's enrollment policy allows year-round open enrollment and is not based on a fixed start-and-end semester or quarter system.

In order to achieve the stated mission and objectives, Global University graduate degree and certificate programs utilize the following components that are designed to equip students with skills and methodologies to be lifelong learners:

1. An instructional design that incorporates independent and structured research and writing to enable students to think and write both reflectively and critically about their own ministry practices, goals, and pursuits.
2. Readings that encourage students to think critically, analytically, and synthetically about a wide range of personal, professional, spiritual, and social issues, using a high level of theological reflection.
3. Practical applications for ministry and Christian service within the cultural and professional milieu of students.

Student Advisement

Global University strives to provide as much assistance as possible in planning the educational programs of its students. A faculty advisor is assigned to each student when he or she is admitted into a program. Students may contact this advisor at any time to request information or advice regarding educational planning. It is the interest and self-discipline of students, however, that will determine success in meeting educational goals. Certain courses have prerequisites or recommended sequences that students are encouraged to follow. These prerequisites and recommendations are noted for each course in the sections on "Graduate Course Descriptions." Also see sections on "Degree (or Certificate) Audit Report" and "Specialized Studies—All Divisions."

Faculty Mentors

Qualified faculty mentors, who have been approved by the dean to mentor specific courses, will be assigned to facilitate and assess the in-depth, applied research and writing projects to be completed by the students who enroll in a given course. The mentor will guide students in the directed coursework using a graduate study guide that lists a variety of required and recommended readings. Individual faculty mentors may, at their own discretion, assign due dates for specific writing assignments. The mentor will be available to evaluate and assign grades to student assignments, respond to questions and/or comments from students, and facilitate their understanding of subject matter in specific content areas.

Ministerial Credentialing with the Assemblies of God

Global University's Doctor of Ministry, Master of Divinity, and all of its Master of Arts degree programs fulfill the educational requirements for ministerial credentials through the ordination level with the General Council of the Assemblies of God USA. Individuals seeking ministerial recognition or credentialing with all other organizations should follow guidelines furnished by the specific credentialing agency or organization.

Chaplaincy Training

Global University is pleased to offer our MDiv degree as recognized and accepted for training for many institutional chaplaincy roles. Those interested in a career as a military chaplain are encouraged to call Dr. Randy Hedlun, graduate school dean, at (417) 862-9533, ext. 2358 to discuss the possibilities.

Graduate Studies Office Concept

Students outside the USA will enroll in Global University graduate degree or certificate programs through the director of an authorized graduate studies office (GSO). If a country does not have an authorized GSO, students may enroll directly with the International Office in Springfield, Missouri, USA. Some of the functions of the GSO director are to provide students and prospective students with information about Global University graduate programs, collect tuition and fees, and make learning resources available for students. At the discretion of the GSO director, students may have access to facilitated group studies. With the graduate studies office concept, faculty who serve in the capacities described below will be available to give students guidance and to assess academic assignments during their pursuit of graduate studies. Facilitators may be available at the discretion of the director of a GSO.

Group Facilitator

The director of a graduate studies office may arrange for a group facilitator to meet with the group according to a prearranged schedule to lecture, lead discussion groups, or otherwise facilitate students' understanding of subject matter in a content area. A group-learning facilitator may or may not be the same individual as the assigned faculty mentor.

Admission Status

An applicant for admission to the Graduate School of Theology should be motivated to conduct research in one of the approved fields of study. The applicant is granted admission status based on the following criteria.

Full Admission

Full admission to the Graduate School of Theology and all graduate programs is granted on the basis of an applicant's academic competency as demonstrated in the following ways:

1. **Degree and grade point average.** The applicant must have a bachelor's degree (BA, BS, etc.) from an accredited or recognized college or university, with a minimum grade point average of 3.00 (or its equivalent) for the institution where the last degree was earned. If the grade point average is lower than 3.00, an applicant may be granted probationary admission to the Graduate School of Theology. (Note: Probationary admission will not be granted to applicants for the doctor of ministry degree.)
2. **English academic proficiency.** The applicant must demonstrate ability in the English language to (a) study and communicate at a graduate level of studies using standard English grammar, syntax, and style; (b) think and communicate logically; (c) do critical analysis; and (d) organize an academic paper in an orderly fashion. (At the discretion of the dean, the applicant may be required to write and submit a five-to-ten page essay on a designated topic.) Verification that English proficiency requirements have been fulfilled is subject to approval by the dean of the Graduate School of Theology.

Provisional Admission

A master of divinity applicant may be granted provisional admission to the Graduate School of Theology pending completion of a bachelor's degree.

Probationary Admission

If a master's level applicant does not meet the minimum grade point average requirements for full admission to the Graduate School of Theology, probationary admission may be granted. The student must then earn a minimum grade point average of

3.00 for the first four graduate courses (12 credits) completed with Global University. Failure to obtain at least 70 percent on any of these courses will disqualify a student from admission to any of the graduate degree or certificate programs. The student will be notified in writing of disqualification.

Doctoral applicants will not be granted probationary admission.

Special Student Admission

An applicant may be granted special student status in the following circumstances:

1. An applicant who has a bachelor's degree and wants to take graduate courses for personal enrichment or to transfer into another graduate program may apply for special student admission and pay all applicable fees. Special student status allows a student to enroll in a maximum of 12 credits at the graduate level. In order to enroll in additional credits, the student will be required to submit a complete application packet and pay the applicable fee.
2. An applicant who has applied for full admission to the Graduate School of Theology, but whose application packet is missing one or more official transcript(s) and/or reference form(s) may be granted special student admission to enroll in a maximum of four graduate courses (12 credits) pending receipt of missing components. After missing components are received, the student will be granted admission status based on evaluation of all components of the application packet.

Student Number

A student number is assigned by the International Office when a student's application is processed. The student number must be used on all coursework and correspondence or electronic communication between the student and the Global University enrollment office. Under no circumstances will a student be allowed to enroll in, take a final examination for, receive a grade for, or otherwise be given credit for a course without an officially assigned Global University student number and active student status.

Student Identification Card

Any student who is enrolled in a Global University course may request a student identification card. This card will allow the student access to any institutional library that cooperates with Global University as a host school or has signed a library agreement with Global University. Host schools are found in most countries where Global University has degree-level students. A student may obtain a list of cooperating libraries for his or her country from the Global University (known as ICI in some countries) library director.

Time Limits

Start of Studies

A student who has been granted any type of admission status to the Graduate School of Theology should enroll in a course within three months of notification of acceptance into the Graduate School of Theology to maintain active status.

Individual Course

The time limit for completing an individual course, including the service learning requirement, is six months from the date of enrollment in the course, except as noted in the following paragraph. Individual faculty mentors may, at their own discretion, assign due dates for specific writing assignments.

The enrollment period for RES 6913 *Research Methodology* and RES 8953 *Dissertation Research and Proposal* is nine months. The enrollment period for RES 6926 (or degree-plan-specific) *Thesis* and RES 8966 (or degree-plan-specific) *Dissertation from Idea to Bound Volume* is two years.

Incomplete. A course that is not completed within the six-month enrollment period will receive INC on the transcript. At the discretion of the director of a graduate studies office, a student may not be allowed to enroll in any additional course(s) until all assignments for incomplete courses are submitted.

Withdraw. If a student requests to withdraw from a course before the expiration of enrollment, a WD will be shown on the transcript for the course. A student may re-enroll in the same course with no waiting period by paying full tuition and being responsible for all assignments.

Re-enroll. A student may re-enroll in a course for which an INC or WD has been received with no waiting period by paying full tuition and being responsible for all assignments.

Retake. A student may retake a course for which an unacceptable grade has been received by paying full tuition and being responsible for all assignments. There is no waiting period to retake a course. Approval of the graduate studies office director is required for a student to repeat a course for which the student received a grade below 70 percent.

Active Students

Active students are graduate students who enroll in at least one course per calendar year (January–December).

Inactive Students

If a student does not enroll in at least one course per calendar year after being admitted to the Graduate School of Theology, his or her status becomes inactive. Students may be allowed to reactivate admission status by submitting a request for dean approval and paying a fee.

A student approved for reactivation will fulfill program requirements of the graduate catalog that is current at the time of reactivation. A student whose status remains inactive for five years or longer should reapply for admission to the Graduate School of Theology according to application procedures in effect at the time. Only the number of credits applicable to the current program of study will be awarded and appear on student transcripts.

ACADEMICS

Course Assignment Requirements

Because of the non-residential nature of Global University's master of arts degree, master of divinity degree, doctor of ministry degree, and graduate studies certificate programs, it is expected that a student will spend approximately 135 hours in study, research, and writing for each 3-credit course. The general distribution of the 135 hours per course is as follows:

1. **Reading.** Approximately 1,000 pages of reading will be assigned per three-credit course. The reading requirement will be identified in each graduate study guide and may vary according to the nature of the materials being studied. Electronic resources may be utilized in addition to, or as part of, the reading requirements. Doctoral program courses will require 250 to 500 pages of additional reading.
2. **Interacting with questions.** Each course will include a series of content, integration, and synthesis questions related to reading assignments, to which the student should respond in writing. Questions will cover the content of the material and will require the student to think critically and contextually about the subject matter.
3. **Applying research techniques.** The graduate study guide for each course provides students with the opportunity to clarify and/or refine writing and research techniques and methodology, as well as to develop expertise in the subject matter covered. Students are asked to apply acquired methodology and skills to their ministerial or personal context. The research and writing expertise developed throughout the coursework will enable students to do advanced research. Students also may apply acquired methodology and skills to a master's thesis or a doctoral dissertation.
4. **Writing.** With the exception of biblical language courses, unit writing assignments of 4 to 8 pages (1,000 to 2,000 words) will enable the student to complete the final paper of 20 to 25 pages (5,000 to 6,250 words) that gives evidence of original graduate-level scholarship. Papers will be evaluated on the basis of form, content, and originality. All written assignments for all courses must conform to the format of Global University as presented in the *Global University Graduate Studies Form and Style Guide* that is current when the student enrolls in the respective course. Any exception must be approved by the dean.
All papers submitted for grading must be either typewritten or computer printed. GU reserves limited copyrights to use student assignments with the faculty and other students for research, instruction, and illustration.
5. **Making practical application.** Each course will provide the student with tools for practical application of concepts covered in the course and will require the student to write and submit a service learning summary of 1 to 1½ pages (250 to 375 words) that gives evidence of the student's ability to apply these concepts in a ministry or professional setting. Also see "Service Learning Requirements" section.
6. **Evaluations.** A portion of the student's grade may be determined by a two-hour proctored written evaluation at the end of a course. As with the other writing assignments, grades will be assigned on the basis of the student's form, content, and ability to respond accurately to the evaluation questions. Some graduate courses require a student to take one or more supervised objective examinations either instead of or in addition to subjective evaluations.

Service Learning Requirements

All students are required to complete a service learning requirement for each course and submit a summary assessment report to indicate application of benefits derived from the course. The assessment report should give evidence of the student's ability to apply concepts presented in the course to a ministry and / or professional setting.

Service Learning Process

- May be completed in a church or non-church setting.
- Should consist of any valid and meaningful ministry experience that incorporates the specific course's content and interacts with other people.
- Will be assessed by the student's mentor as satisfactory or unsatisfactory. Credit and a grade for the course will be granted only after the SLR report is submitted and assessed as satisfactorily completed.

Along with the SLR, students should also submit a course satisfaction survey after completing a course. The survey may be completed online.

Academic Assessment

Course objectives related to personal areas of maturation other than intellectual knowledge (affective domain) will be assessed through reflective papers, service learning requirements, practicums, and internships. Course objectives related to acquisition and processing of intellectual knowledge (cognitive domain) will be assessed through course papers, capstone papers, theology of ministry papers, theses, doctoral candidacy examinations, and dissertation projects as applicable. Biblical language skills will be assessed by supervised objective and translation exams. Skill-oriented goals will be assessed through field studies or a practicum.

Students who study at the graduate level are required to earn a grade point average of 3.00 or higher in order to receive a master of arts, master of divinity, or doctor of ministry degree, or a graduate studies certificate. A minimum grade of 70 percent (C- or 1.67 grade points) is required for a Global University graduate course to count toward fulfillment of graduate degree and certificate program requirements. A minimum grade of 80 percent is required for a graduate thesis to count toward fulfillment of master of arts or master of divinity degree requirements, or for a doctoral dissertation project to count toward fulfillment of doctor of ministry degree requirements.

The grade point average will be based on grades for all graduate-level courses that are completed with Global University. A grade below 70 percent will count in the grade point average, but it will not count toward fulfillment of degree requirements. Graduate credit will not be allowed for a graduate course that was completed at another institution with a grade below B- (or its equivalent).

Grading System

Global University uses a 100-base numerical grading system for its graduate-level courses based on the following grade percentages with equivalent letter grades and grade points:

Percentage	Grade	Description	Grade Points
97–100%	A+	Superior	4.00
93–96%	A	Excellent	4.00
90–92%	A–	Excellent	3.67
87–89%	B+	Good	3.33
83–86%	B	Good	3.00
80–82%	B–	Below Expectations	2.67
77–79%	C+	Below Expectations	2.33
73–76%	C	Below Expectations	2.00
70–72%	C–	Poor	1.67
Below 70%	F	Failing	0.00

Assessment Criteria

All projects, papers, and/or assignments submitted for evaluation will be marked with a numeric percentage according to the foregoing grading scale based on the following criteria:

1. 90–100 percent. Grades in this range are given for work that is above average or of exceptional quality for the graduate level.
2. 80–89 percent. Grades in this range are given for work that is below expectations to good for the graduate level.
3. 70–79 percent. Grades in this range are given for work that is below expectations to poor for the graduate level.
4. 69 percent or lower. This grade is given when work submitted for evaluation does not indicate a level of understanding and/or work quality conducive to acceptable completion of a graduate-level course.
5. Remedial assessment (revise). This grade will not appear on a transcript; it will appear only on individual assignments.

When any coursework submitted for evaluation receives a grade below 70 percent, a student is required to revise and resubmit it for reevaluation before proceeding with the course. A maximum of two revisions may be required (or allowed) for any one assignment. A student should not be given a grade above 80 percent for work that has been revised and resubmitted.

At the discretion of the director of the graduate studies office through which a student is enrolled, there may be a resubmission fee for each revised assignment that is presented for evaluation.

Academic Probation/Restriction

If a student's cumulative grade point average for graduate courses completed with Global University falls below 3.00,

the student will be placed on academic probation and will be restricted to taking one course at a time.

Before a student who is on academic restriction enrolls in additional courses, the student will be required to sign a statement acknowledging that he or she is aware that additional courses are taken with the understanding that a graduate degree or certificate will not be awarded with a cumulative grade point average below 3.00.

No course grade below 70 percent will be applied to a doctor of ministry, a master of divinity, or a master of arts degree or graduate studies certificate requirements. Approval of the director of the respective graduate studies office is required for a student to repeat a course for which the student received a grade below 70 percent. This policy went into effect January 1, 2014, and does not apply to existing students who began their studies prior to January 1, 2014.

Awarding of Degrees

A Global University master of arts, master of divinity, or doctor of ministry degree, or a graduate studies certificate, is granted by the board of administration of Global University only after the registrar's office reviews a student's records and certifies that all requirements for the respective program have been met. See the specific program sections for specific course requirements.

Student Notifications (Including Grades)

Students who enroll directly with the International Graduate Studies Center in Springfield, Missouri, USA, will be able to access final grades, order history, and communications through the Global University Student Portal. Students may direct questions about the student portal to support@globaluniversity.edu.

Students who enroll through the director of an authorized Graduate Studies Office (GSO) outside the USA will receive all academic and administrative information, instructions, and documents according to directive from the director of the respective office.

Credit System

Credits for a course are a means of measuring a student's progress in an academic program. Credits represent the standards for the amount and quality of work required for students to complete a given course.

Global University's academic and credit systems for measuring progress in an academic program may vary from those of other countries and other institutions. Global University requires a student to complete 45 credits to earn a master of arts degree, 78 credits to earn a master of divinity degree, 63 credits to earn a doctor of ministry degree, and 18 credits to earn a discipline-specific graduate studies certificate. At the graduate level, a credit (sometimes referred

to as a semester credit or semester credit hour) represents the equivalent of approximately 45 hours of time spent in academic engagement by the student.

The credit system was developed by accrediting associations in an attempt to ensure that minimum standards had been met in the teaching of any post-secondary course or subject. When a student completes a course at one institution, it is important to know how this study relates to a course taught at other institutions. This information is especially useful if the student wishes to transfer credits earned at one university to another university or post-secondary institution. The credit system makes it possible to make such comparisons.

Transfer of Global University Credit

Global University's degree courses have been accepted for transfer of credit by many accredited colleges, universities, and seminaries around the world. A student who is interested in transferring credit to a specific institution should contact the school to determine the number of credits the school may allow in transfer from Global University. It is the responsibility of the student, however, to verify the applicability of Global University's credits and degrees toward any individual educational or professional goal.

Requesting Global University Transcripts (Degree-level)

Students may view and print their Student Subject list via the student portal, accessible through the GU website. A transcript of degree-level coursework completed through Global University is available upon request. Transcripts will only be mailed or emailed with the student's consent.

Please note, a degree-level transcript will list the number of credits transferred from other qualified institutions; however, the individual courses transferred will not appear on the transcript. Grade point averages are determined only on the basis of degree-level courses completed at Global University.

Global University has partnered with the transcript service, Parchment, to issue all official transcripts. Official transcripts are imprinted with the Global University seal and issued only by the Registrar's Office in Springfield, Missouri. Transcripts can be ordered online at www.parchment.com.

For students who are unable to order online, a Transcript Request Form is available upon request. Students may email or mail requests for this form to the following:

Mail: Global University—Registrar's Office
1211 South Glenstone Avenue
Springfield, MO 65804-0315 USA
Email: transcripts@globaluniversity.edu

More information regarding the ordering of official transcripts can be found on our website at www.globaluniversity.edu.

Transfer of Credit from Other Institutions

Global University accepts transfer of credit from other institutions of higher learning with recognized accreditation in the following ways:

1. A maximum of 6 graduate-level credits into a graduate studies certificate program.
2. A maximum of 9 graduate-level credits into a master of arts degree program.
3. A maximum of 54 graduate-level credits into a master of divinity degree program. Any combination of transfer credits and advanced standing credits cannot exceed 54 towards a MDiv degree.
4. A maximum of 9 doctoral-level credits into a doctor of ministry degree program.

Each course considered for transfer of credit must be compatible in content to the Global University graduate degree or certificate program chosen by the student and must have a minimum grade of B- (or its equivalent). Transferred credits may not be substituted for RES 5023 *Graduate Research and Writing: Principles and Practice*, RES 6913 *Research Methodology*, RES 6926 (or degree-plan-specific) *Thesis*, RES 8953 *Dissertation Research and Proposal*, RES 8966 (or degree-plan-specific) *Dissertation from Idea to Bound Volume*. Any deviation from this policy will be at the discretion of the dean.

Transfer of credit previously awarded will be reevaluated for inactive students who reactivate into a current program of study and active students who change to a different program of study. Only transfer of credit that is applicable to the current program of study will be awarded and appear on student transcripts.

Allowing for maximum credit transfer and reduction, a student must complete a minimum of 27 additional credits with Global University for a master of arts degree, 24 additional credits for a master of divinity degree, 30 additional credits for a doctor of ministry degree, and 12 additional credits for a graduate studies certificate after being admitted to the respective degree or certificate program.

Experience-Based Learning

No credit will be given for experience-based learning in lieu of taking graduate-level courses for credit.

Degree (or Certificate) Audit Report

The degree (or certificate) audit report reflects the student's academic progress toward the completion of a graduate level degree or certificate program. This report will include a summary of the status of the current degree or certificate, including all the following that apply to the program: Global University coursework completed or in progress, graduate level credit transferred from other accredited or recognized institutions, reduction of credit based on undergraduate

studies, biblical language waiver based on undergraduate credit (does not reduce credit requirements for a program), and additional courses required for the program. Transfer of credit previously awarded will be reevaluated for inactive students who reactivate into a current program of study and active students who change to a different program of study. Only transfer of credit that is applicable to the current program of study will be awarded and appear on student transcripts.

Payment of the application fee entitles a student to one audit report for the respective degree or certificate program. A student may request additional audit reports by submitting a Request for Student Service form to degreeaudit@globaluniversity.edu and paying the audit report fee. Also see sections on "Transfer of Credit from Other Institutions."

Students Who Enrolled Prior to 2023

Students who started their studies with Global University prior to the issuance of this catalog may continue to follow the program requirements as stated in the catalog that was current when they enrolled. A student may elect to modify his or her program to meet the requirements of Global University for degree or certificate plans listed in the current catalog. If a student becomes inactive or does not complete a degree or certificate program within the time limit specified for the program, the student will be required to fulfill program requirements as stated in the catalog that is current at the time the student's status changes from inactive to active, or at the time the student exceeds the time limit for the earlier program. All requests for exceptions must be submitted in writing and are at the discretion of the dean.

Course and Program Revisions

Global University reserves the right to revise all announcements contained in this catalog and, at its discretion, make reasonable substitutions or changes in requirements to improve or upgrade academic programs.

Course Numbering System

Global University's courses are identified by a code of three letters plus four digits. The following course categories are incorporated in the numbering system for Global University graduate-level (post-baccalaureate) courses:

1. **Course categories.** The first three letters indicate the academic content area of the course:

Biblical Studies Division

BIB	Bible	BOT	Bible Old Testament
BNT	Bible New Testament	THE	Theology

Ministerial Studies Division

CHP	Chaplaincy	MIN	Ministries
EDU	Education	MIS	Missions
LDR	Leadership		

General Education Division

RES	Research
-----	----------

2. **Course level.** The first digit indicates the level of the course (5, 6, 7, and 8 represent graduate-level).

3. **Course identifier.** The second and third digits serve as numerical identifiers.

4. **Course credit.** The final digit indicates the credit value.

An example is BIB5033 *The Bible as Literature*:

All Global University graduate courses are reviewed by an outside content specialist. Global University's graduate-level course writers hold earned doctoral or terminal degrees from accredited institutions and are chosen based on expertise in a given field. The curriculum is designed to allow students to engage in original, guided research in addition to structured learning activities.

Master of Arts Degree Programs

MASTER OF ARTS (MA) DEGREES—45 CREDITS

Two master of arts degree programs are available:

1. Master of Arts in Biblical Studies
 2. Master of Arts in Ministerial Studies
- Students must complete 45 graduate credits beyond the bachelor's degree.
 - Students may choose to write a 6-credit thesis as part of the 45 required credits.
 - Students who do not complete a thesis as a part of a master of arts degree plan are required to submit a capstone paper in addition to completing the 45 credits required for the degree.
 - Both MA degrees allow students to choose a broad field degree plan with no specialization or a degree plan with a specified concentration.

Choices for the Biblical Studies program are

1. Broad Field Plan and
2. New Testament Concentration.

Choices for the Ministerial Studies program are

1. Broad Field Plan,
2. Education Concentration,
3. Intercultural Studies Concentration, and
4. Leadership Concentration.

See section for “Master of Arts Degree Requirements” for courses required for specific graduate degree plans.

Through various types of research activities, each program is designed to prepare qualified students for a high level of service and proficiency in present and future ministry activities.

Master of arts degree programs require a student to complete 45 credits of graduate courses from the following three classifications:

1. Core courses: 24 credits
2. Plan-specific courses: 12 to 15 credits
3. General elective courses: 6 to 9 credits

A capstone paper (no credit value) is required for all master of arts degrees that do not include a thesis.

MA Advanced Standing

Students who have earned credits in religious studies (Bible, theology, ministry, missions) from approved colleges and universities may request exemption from certain required courses in the MA degree program, thus granting them Advanced Standing. Life experience does not qualify for Advanced Standing. The following rules apply to MA Advanced Standing:

1. Full Advanced Standing of nine credits will be granted to students who have earned a bachelor degree from an approved school in a ministry-related field, such as Bible, theology, missions, or ministry. Students with full Advanced Standing will complete 36 credits to earn the MA degree.
2. Advanced Standing cannot exceed nine credits.
3. For students whose degree is not in a ministry-related field, Advanced Standing is considered for undergraduate courses with satisfactory credit value and content in foundational or advanced study in Old Testament, New Testament, and theological subjects. A minimum grade of 80 percent is required for each qualifying course. The student must submit official transcripts of all undergraduate credits to be considered for Advanced Standing.
4. Advanced Standing must be requested from the registrar's office prior to enrollment in the first course.
5. Advanced Standing will be granted to qualifying students at the rate of no more than one graduate credit for each two undergraduate credits. Partial course advanced standing will not be granted.
6. Advanced Standing may be granted for the courses BIB 5033 *The Bible as Literature: Theory and Methodology*, THE 6093 *Theology of the Holy Spirit in the Old Testament*, and BNT 6203 *Backgrounds to the New Testament: Cultural and Historical Contexts*.

Transfer of Credit from Other Institutions

Global University accepts transfer of up to a maximum of nine graduate-level credits into a master of arts degree program from other institutions of higher learning with recognized accreditation.

Each course considered for transfer of credit must be compatible in content to the Global University graduate degree or certificate program chosen by the student and must have a minimum grade of B- (or its equivalent). Transferred credits may not be substituted for RES 5023 *Graduate Research and Writing: Principles and Practice*, RES 6913 *Research Methodology*, or RES 6926 (or degree-plan-specific) *Thesis*. Any deviation from this policy will be at the discretion of the dean.

Transfer of credit previously awarded will be reevaluated for inactive students who reactivate into a current program of study and active students who change to a different program of study. Only transfer of credit that is applicable to the current program of study will be awarded and appear on student transcripts.

MA in Biblical Studies Outcomes

The Master of Arts in Biblical Studies curriculum is designed for the student who desires to preach, write, or teach Bible and theology in a variety of educational and ministerial settings. It is designed to provide training in the exegesis and interpretation of Scripture. The student is required and encouraged to think critically, analytically, and synthetically. Special attention is given to preparing students to teach and minister the uniqueness of the Christian faith from a Pentecostal perspective. Completion of the Master of Arts in Biblical Studies equips the student to do the following:

1. Teach Bible and theology in Bible schools and colleges, Christian schools, and other educational settings.
2. Serve effectively as a Christian leader: pastor, missionary, evangelist, writer, and teacher.
3. Develop and practice valid systems of biblical hermeneutics and exegesis.
4. Develop a strong Pentecostal theological perspective.
5. Communicate the gospel message effectively within his or her cultural context and cross-culturally.
6. Obtain, through instruction and practice, knowledge and skills to write scholarly and theologically sound papers for publication.
7. Engage in research and studies beyond the MA degree.

MA in Ministerial Studies Outcomes

The Master of Arts in Ministerial Studies curriculum is designed for the student who desires to serve in one of the ministries of the church, especially that of pastor, evangelist, or teacher. In-depth research and studies require and

encourage the student to think critically, analytically, and synthetically about ministry-related issues. Special attention is given to preparing students to teach, lead, and minister the uniqueness of the Christian faith from a Pentecostal perspective. Completion of the Master of Arts in Ministerial Studies equips the student to do the following:

1. Minister and serve with professional excellence as pastor, educator, leader, missionary, and support staff within church, missions, and educational organizations.
2. Integrate various approaches to biblical and theological studies into ministry.
3. Develop and practice valid systems of biblical hermeneutics and exegesis.
4. Engage in advanced theological reflection that will improve ministry skills and practice.
5. Develop a strong Pentecostal theological perspective.
6. Exhibit writing and speaking skills that are necessary in ministerial practice and research.
7. Engage in research and studies beyond the MA degree.

Program Change

A student may request a program change at any time. If a degree audit has already been completed, a change of program fee will apply. If a degree audit has not been completed, no fee will be charged.

If Global University requests that a student change from one program to another, a change of program fee and /or degree (or certificate) audit fee will not be required.

Time Limit for a Master of Arts Program

A master of arts student should complete all degree plan requirements (including the thesis or capstone paper, as applicable) within seven years from the date of enrollment in the first graduate course with Global University. Changing from one master of arts plan to another does not allow additional time to complete master of arts degree requirements.

Biblical Language Requirements

All students who receive a Master of Arts in Biblical Studies (New Testament concentration) are required to complete 9 credits of Greek biblical language. A background in these original languages of the Scriptures is required for some graduate courses and will be helpful for all biblical studies courses.

Some graduate-level biblical language courses require supervised examinations that may include objective and translation components. They may also require subjective evaluation components.

Practicum Requirements

A student may enroll in a practicum as an elective for a master of arts degree according to the respective degree plan options.

A student is expected to engage in at least 45 hours of ministry activities directly related to the practicum requirements and objectives over a three-month period. This is in addition to the time required to complete the required reading and writing elements of the practicum. Specific practicum designs and settings may require a greater time commitment.

The time limit to complete the practicum is six months from the date of enrollment in the course.

Master's Thesis Requirements

Students who elect to write a thesis as a part of a master of arts degree program will be required to enroll in and write the thesis on an approved subject or topic that is specific to the degree plan the student has chosen.

A student may complete only one thesis for any graduate degree program.

Students who choose to write a thesis are encouraged to begin thinking about a thesis topic immediately after admission to Global University's Graduate School of Theology.

Enrollment in the thesis and appointment of a thesis committee will be allowed after a student has completed RES 6913 *Research Methodology* and is within 12 credits of completing all other course requirements for the degree being sought. See "Course Descriptions" for the thesis course number for a specific degree plan or content area.

The time limit to complete the thesis is two years from the date of enrollment in the thesis.

Capstone Paper Requirements

A student who does not write a thesis as part of a master of arts degree plan must write and pass a capstone paper in addition to completing the 45 credits required for the specific master of arts degree program chosen. Students will be required to pay a capstone paper submission fee. The capstone paper must be successfully completed before the end of the time limit specified for the program.

Complete instructions for completing the capstone paper are available upon request or by download from <https://globaluniversity.edu/student-forms/>.

Master of Arts Degree Requirements

Global University’s master of arts degree programs require students to complete 45 credits of 3-credit courses. Students may choose to write a 6-credit thesis in lieu of two 3-credit courses. A concentration requires 18 credits within the specified content area. Required core courses include one or more 3-credit courses that will apply to the content area for each degree plan option. Core courses should be taken prior to plan-specific courses. Plan-specific course options are listed for each degree plan. See the “Course Descriptions” section for additional choices for general electives. Master of arts degree plan requirements follow. See the section above on Advanced Standing for information about reducing the total number of required credits.

Master of Divinity Degree Program

MASTER OF DIVINITY (MDIV) DEGREES—78 CREDITS

The master of divinity degree program allows students to choose to follow two distinct tracks:

1. Biblical Language Track
 2. Christian Ministry (English Language) Track
- Students must complete 78 graduate credits beyond the bachelor's degree.
 - Students who have not completed a thesis as part of an earlier graduate degree are strongly encouraged to do a 6-credit thesis.
 - Students who do not complete a thesis as part of the master of divinity degree program will be required to submit a theology of ministry paper in addition to completing all required credits.
 - Students may be allowed to apply all credits from a previous Global University MA degree and graduate certificate to a MDiv degree.

Global University's master of divinity degree program requires a student to complete 78 graduate credits from the following classifications:

For the English Language Track a three-credit course BIB 5543 *Foundations of Biblical Language* is all that is required. See details below under “Biblical Language Requirements.”

NOTE: A thesis written as part of a master of arts program will not waive the requirement for a theology of ministry paper even though credits from the master of arts thesis may be used to fulfill the thesis requirement for the master of divinity program. A student who writes a thesis for a master of arts degree and a second thesis for a master of divinity degree will not be required to write a theology of ministry paper.

Admission Requirements

Applicants must have completed a bachelor's degree from an accredited or recognized school with a minimum GPA of 3.00.

Credit Reduction Policies

- A MDiv student with an undergraduate degree from Global University or another accredited or recognized institution may receive a reduction of up to 21 graduate equivalency credits in the same area. The maximum waiver granted will be based on a ratio of 2 undergraduate credits for 1 graduate credit. Eligible credits will be determined by review of official transcripts that are on file at Global University.
- Global University will apply up to 45 credit hours earned from a previous graduate-level Global University degree program (if applicable).
- Credits earned in a Global University graduate studies certificate may be applied to the MDiv degree.
- The cumulative total of credits from a GU master of arts degree, transfer credits from other accredited institutions, and reduction of credit may not exceed 54 hours.
- Every MDiv candidate must complete at least 24 additional hours of graduate-level credit with Global University.

Transfer of Credit from Other Institutions

Global University accepts transfer of up to a maximum of 45 graduate-level credits into a master of divinity degree program from other institutions of higher learning with recognized accreditation.

Each course considered for transfer of credit must be compatible in content to the Global University graduate degree or certificate program chosen by the student and must have a minimum grade of B- (or its equivalent).

Transferred credits may not be substituted for RES 5023 *Graduate Research and Writing: Principles and Practice*, RES 6913 *Research Methodology*, or RES 6926 (or degree-plan-specific) *Thesis*. Any deviation from this policy will be at the discretion of the dean.

Transfer of credit previously awarded will be reevaluated for inactive students who reactivate into a current program

of study and active students who change to a different program of study. Only transfer of credit that is applicable to the current program of study will be awarded and appear on student transcripts.

MDiv Outcomes

The MDiv is regarded as the first professional degree in ministerial and biblical studies and is designed to prepare students for full-time Christian service: pastoral ministry, church administration, or teaching at the Bible institute or baccalaureate level. Special attention is given to preparing students to teach and proclaim the uniqueness of the Christian faith from a Pentecostal perspective. Students who desire to pursue a doctoral degree will find the master of divinity degree to be foundational for research at the doctoral level (although the MDiv is not required for admission to the GU DMin degree). Completion of the master of divinity equips the student to do the following:

1. Teach in Bible schools and colleges, pursue higher educational goals, lead and write for Pentecostal churches in multiple countries and cultures, and be a servant-oriented leader.
2. Exhibit character and faith through maturity in personal Christian living, strong interpersonal skills, and servant-oriented leadership.
3. Employ valid methods of biblical exegesis.
4. Contextualize biblical knowledge and interpretational methods to the needs of his or her community.
5. Develop a strong Pentecostal theological perspective.
6. Prepare and deliver well-organized, clearly-presented, biblically-based sermons and teaching plans.
7. Employ critical thinking and research techniques.
8. Engage in research and studies beyond the master of divinity degree.

Program Change

A student may request a program change at any time. If a degree audit has already been completed, a change of program fee will apply. If a degree audit has not been completed no fee will be charged.

If Global University requests that a student change from one program to another, a change of program fee and /or degree (or certificate) audit fee will not be required.

Time Limit for an MDiv Degree Program

A student should complete all degree requirements for an MDiv degree within ten years from the date of enrollment in the first graduate course with Global University after being approved as a master of divinity student. This includes the thesis or theology of ministry paper, as applicable, and may require the student to take courses concurrently

and/or complete some courses in less than the six-month enrollment period.

Biblical Language Requirements

All students who receive an MDiv degree (biblical language track) are required to complete 12 credits of Greek and/or Hebrew biblical language studies. Greek language courses completed at the undergraduate level may be used to waive up to 6 biblical language credits in the MDiv. A background in these original languages of the Scriptures is required for some graduate courses and will be helpful for all biblical studies courses. BIB 5543 Foundations of Biblical Language is the only course required for the English Language track of the MDiv.

Some graduate-level biblical language courses require supervised examinations that may include objective and translation components. They may also require subjective evaluation components.

Practicum Requirements

All students who receive an MDiv are required to complete a 3-credit field-based practicum project that will provide a supervised learning experience to make practical application of academic content covered throughout the degree program.

A student is expected to engage in at least 45 hours of ministry activities directly related to the practicum requirements and objectives over a three-month period. This is in addition to the time required to complete the required reading and writing elements of the practicum. Specific practicum designs and settings may require a greater time commitment on the part of the student.

A practicum project may be fulfilled in a variety of settings, such as a local church, a parachurch ministry, a mission trip, or a Christian school, and may be contextualized to the venue and needs of the student. All practicum projects must be approved by the director of the graduate studies office through which the student is enrolled.

A student must be within 12 credits of completing all other coursework for the respective degree (6 credits for a certificate) before enrolling in a practicum. Credit for only one practicum may be applied to a degree or certificate.

The time limit to complete the practicum is six months from the date of enrollment in the course.

Master's Thesis Requirements

Students who write a thesis as part of a master of divinity degree program will be required to write the thesis on an approved subject or topic that relates to ministry, theology, or biblical studies.

A student who has not completed a thesis as a part of an MA degree program and is admitted to the MDiv degree program is strongly urged to write a thesis for general elective or division elective credit as a part of the MDiv degree program. A student who has completed a thesis as a part of an MA degree program and is admitted to the MDiv degree program may write another thesis in a different content area as a part of the MDiv degree requirements. A student may complete only one thesis for any graduate degree program.

Students who choose to write a thesis are encouraged to begin thinking about a thesis topic immediately after admission to Global University's Graduate School of Theology. Enrollment in the thesis and appointment of a thesis committee will be allowed after a student has completed RES 6913 *Research Methodology* and is within 12 credits of completing all other course requirements for the degree being sought. See the sections on "Master of Divinity Degree Requirements" and "Course Descriptions" for the thesis course number for a specific degree plan or content area.

The time limit to complete the thesis is two years from the date of enrollment in the thesis.

Theology of Ministry Paper Requirements

A student who does not write a thesis as part of a master of divinity degree program will be required to write a theology of ministry paper in addition to completing the 78 credits required for the master of divinity degree program. Students will be required to pay a theology of ministry paper submission fee. The student must receive a passing grade on the theology of ministry paper to graduate with the master of divinity degree program. Those choosing to write a theology of ministry paper must successfully complete it before the end of the time limit specified for the complete program.

Complete instructions for the theology of ministry paper are available upon request or may be downloaded from the Global University website at <https://globaluniversity.edu/student-forms/>.

Master of Divinity (MDiv) Degree Requirements

Global University’s master of divinity degree program requires students to complete 78 credits of 3-credit courses. A student may choose to complete a 6-credit thesis in lieu of two 3-credit elective courses in a division-specific or general elective category. The thesis is strongly encouraged for students who have not written a thesis as part of a master of arts degree program. Students who have already completed a thesis as part of a master of arts degree program may choose to complete two 3-credit elective courses in a specific or general elective category, or may write another thesis in a different content area as part of the master of divinity. Core courses should be taken prior to other required courses. Course options are listed for each content category. See course descriptions for additional choices for general electives. Master of divinity degree requirements follow.

Doctor of Ministry Degree Program

DOCTOR OF MINISTRY (DMIN) DEGREES—63 CREDITS

The DMin degree program allows students to choose one of two specializations:

1. Biblical Studies and Theology
 2. Church Ministries
- Students must complete 63 graduate credits of doctoral studies beyond the master's degree.
 - The biblical studies and theology specialization requires 12 credits of biblical language as part of the 63 graduate credits required for the DMin program. These required biblical language credits can be transferred into the program (see DMin Transfer of Credit and Advanced Standing below) as either Hebrew or Greek or completed as Greek credits within the DMin program.
 - Verifiable, active, consistent ministerial service is required for admission and must be maintained through completion of the DMin.
 - A minimum of three years of active ministry experience is required for admission.

Global University's doctor of ministry degree program requires a student to complete 63 graduate credits from the following classifications:

- Doctoral core and general courses: 42 credits (14 courses)
- Doctoral plan-specific courses: 12 credits (4 courses)
- Doctoral dissertation project: 9 credits

The doctoral dissertation project requires enrollment in a 9-credit dissertation writing and defense course.

Admission Requirements

Additional requirements for full admission as a doctor of ministry student include the following:

1. A master's degree from an accredited institution with a grade point average of 3.00 (or its equivalent—no probationary admission)
2. Current ministerial credentials or evidence of active, consistent, effective ministry
3. A minimum of three years of active ministry experience
4. Commitment to remain active in ministry during studies for the doctor of ministry degree

DMin Outcomes

The doctor of ministry degree programs are designed to enhance the expertise of students who are in full-time Christian service and prepare them academically, spiritually, and professionally to serve. The DMin is regarded as a terminal degree in ministerial and biblical studies. Special attention is given to preparing students to research, teach, and proclaim the uniqueness of the Christian faith from a Pentecostal perspective. Students pursuing a doctoral degree will build upon foundational academic and research skills acquired at the master's degree level.

Completion of the DMin program equips the student to do the following:

1. Lead research projects, teach in seminars, write for scholarly Pentecostal publications and organizations in multiple countries and cultures, and author textbooks and other scholarly and ministry-related publications.
2. Exhibit a deepening of personal spiritual disciplines and maturity, integrating them into the traditional Pentecostal heritage and experience through the ethical application of biblical principles in daily life and ministry.
3. Apply in a practical manner knowledge from academia and research to life experience in daily ministry activities.
4. Create and/or renew support systems for ministry development and longevity.
5. Develop solid biblical relationships with peers to attain and sustain joint efforts that are mutually beneficial for long-term effectiveness.
6. Demonstrate ability to present solid biblical relationship practices both orally and in writing to provide an enduring legacy to the church.
7. Develop advanced research skills and methodologies that will lead to proficiency in research and critical analysis at the highest levels of academic scholarship.
8. Integrate faith and academia to reach valid and informed conclusions for application to ministry.
9. Train others in the research and critical analysis process to enable them to reach valid and informed conclusions and make wise application of scholarship in ministerial and academic settings.

Doctoral Candidacy Requirements

A student is admitted to doctoral candidacy after being fully admitted as a doctor of ministry student, completing 54 credits of doctor of ministry core, general, and specialization courses, and successfully completing the doctoral candidacy exam.

Program Change

A student may request a program change at any time. If a degree audit has already been completed when the change is requested, a change of program fee will apply. Any transfer of credit or advanced standing previously awarded will be reevaluated for students who change to a different program of study. Only transfer of credit and advanced standing that is applicable to the current program of study will be awarded and appear on student transcripts. Also see sections on "Degree (or Certificate) Audit Report" and "Transfer of Credit from Other Institutions."

DMin Transfer of Credit and Advanced Standing

The exact number of credits required and the focus of the courses to be completed will be determined by the director of doctoral studies or the dean according to procedures and course evaluation criteria established by Global University. These requirements will be presented to the student in an individualized degree audit. Individual requirement modifications will be based on these policies:

1. Transfer of credit (TOC) from an accredited doctoral program of up to 9 credits will be accepted.
2. The Biblical Studies and Theology specialization requires 12 credits of biblical languages, of which a minimum of 6 credits must be in biblical Greek. The other 6 credits may be transferred in as Hebrew or Greek credits (see TOC limit above) or completed as Greek credits within the DMin program.
3. Advanced standing is available up to 33 credits.
 - a. Master's level credits earned from an accredited institution beyond 45 credits may be used for up to a maximum of 33 credits advanced standing.
 - b. Of the 33-credit advanced standing credits possible, up to 9 credits can be applied from undergraduate credits at the rate of 1 graduate credit from each 2 qualifying undergraduate credits.
 - c. DMin students must complete a minimum of 30 GU credits following admission to the program in order to earn the degree.

Time Limit for DMin Degree Programs

A student who has been granted full admission to a doctor of ministry degree program, based on completion of all pre-doctoral studies requirements, must complete all doctor of ministry degree requirements in no fewer than two years and no more than ten years from the date of official admission as a doctor of ministry student. The ten-year limit includes the doctoral dissertation project and may require the student to take courses concurrently and/or complete some courses in less than the six-month enrollment period.

Biblical Language Requirements

Some graduate-level biblical language courses require supervised examinations that may include objective and translation components. They may also require subjective evaluation components. See "Doctor of Ministry Degree Requirements" below for additional notes on biblical language requirements.

Doctoral Candidacy Examination Requirements

A student must complete a supervised comprehensive doctoral candidacy examination with a score of 83 percent (3.00) or higher prior to being granted doctor of ministry degree candidacy status. The student is eligible to apply with the director of doctoral studies to take the candidacy examination after completing all doctor of ministry degree core, general, and plan-specific courses. Each doctoral student must successfully complete an individualized supervised comprehensive doctoral candidacy exam within three months after completing the last of the core, general, and specialization course requirements for a DMin program in order to be considered for candidacy and allowed to enroll for the doctoral dissertation project research and proposal course. A student must have a grade point average of 3.00 or higher for all graduate-level courses completed with Global University to qualify to apply for doctoral candidacy.

Students will be required to pay a doctoral candidacy examination fee. Students who have not been granted doctoral candidacy will not be allowed to enroll in doctoral dissertation courses.

Doctoral Dissertation Requirements

All doctor of ministry degree candidates will be required to complete a doctoral dissertation project to fulfill degree requirements. The dissertation project is comprised of two parts: (1) prospectus (2) writing and defense. To complete the project requirements, the student will be required to enroll in RES 7003 Research Prospectus, as the first course enrollment of the DMin program. This course will introduce students to the process and rigor of doctoral research and will result in a research prospectus for the dissertation that will be completed at the end of the program. Students must write an acceptable prospectus before being allowed to continue enrolling in DMin courses. The student will enroll in RES 8969 (or degree-specific) *Dissertation from Idea to Bound Volume*. A student may complete only one dissertation project for a doctor of ministry degree program.

Students are encouraged to begin planning for the dissertation project even when applying to the Graduate School of Theology as a doctor of ministry student. Enrollment in RES 8969 and appointment of a dissertation project advisor will be allowed after a student has been admitted to candidacy in the program. Admission to candidacy requires a student to successfully complete all required doctoral core and specialization courses and the doctoral candidacy exam.

A dissertation project committee will be appointed after a student's doctoral project proposal has been approved by the project advisor and the director and/or dean. See "Doctor of Ministry Degree Requirements" below for the doctoral dissertation course number for a specific degree specialization.

Doctoral Dissertation Project Time Limit

The time limit to complete the doctoral dissertation project is two years from the date of enrollment in RES 8966 *Dissertation From Idea to Bound Volume*.

Doctor of Ministry Degree Requirements

Prerequisites for the Doctor of Ministry Degree–Biblical Studies and Theology Specialization are as follows: a master's degree, verifiable active ministerial service, and a minimum of three years of active ministry experience.

Global University's doctor of ministry degree program requires students to complete 63 credits beyond a master's degree. The 63-credit doctoral requirement will include 42 credits of doctoral core and general courses, 12 credits in the area of specialization, and 9 credits for a doctoral dissertation project that will include a 3-credit research and proposal portion and a 6-credit writing and defense portion. Core and general courses for the doctor of ministry degree should be completed prior to enrolling in other required courses specified for a doctor of ministry degree. See course descriptions for details for specific courses. Doctor of ministry degree requirements follow.

Graduate Studies Certificate Program

GRADUATE STUDIES CERTIFICATES—18 CREDITS

- A graduate studies certificate is not a degree nor a certification.
- Global University's graduate studies certificate programs require students to complete six 3-credit courses for a total of 18 credits.
- A student may complete multiple graduate certificate programs, but a minimum of 12 credits must be completed with Global University for each certificate earned.
- All courses required for graduate studies certificate programs are available for enrollment in graduate degree programs and have the same academic requirements for both certificate and degree programs.
- It is the responsibility of the student to verify the applicability of Global University's credits toward his or her academic and professional goals.
- Certificate-specific course options are listed for each certificate program.

Purpose and Goals of Certificate Programs

The purpose of the graduate studies certificate programs is to enhance training for students internationally to (1) help them grow personally, professionally, and spiritually, and equip them to become more effective leaders within the spheres of home, church, and society; and (2) equip them for further academic pursuits and various ministries and leadership positions of the church and society.

Graduate studies certificate programs present a discipline-specific grouping of courses that enables a student to align his or her academic study closely with personal ministry, professional, or career goals.

Completion of a graduate certificate program equips the student to do the following:

1. Teach, minister, or otherwise serve with professional excellence as educator, leader, missionary, and support staff within church, missions, educational, and professional organizations.
2. Exhibit writing and reflection skills that are necessary in ministerial and professional practice.
3. Engage in research and studies beyond the graduate-level certificate.

Discipline-specific graduate studies certificate programs are designed to allow students who have earned an accredited bachelor of arts or higher degree to complete graduate-level studies in a discipline that will qualify them to participate in academic or professional activities that require proficiency in the field of study. Graduate studies certificate options include the following:

1. New Testament Studies
2. Chaplaincy

COURSE DESCRIPTIONS

Bible (BIB) Biblical Studies Division

BIB 5033 The Bible as Literature: Theory and Methodology (3 credits)

One of the blessings of the literary approach to biblical study has been the recognition that the Bible contains many different genres or types of literature, including poetry, narratives, proverbs, visionary literature, and other genres. BNT 6043 Pneumatology in Lucan Literature (3 credits)

Historically, the exegesis of Luke–Acts has tended to neglect the study of Luke's particular pneumatology. *****5813/***5823 Directed Reading and Research: [Discipline-Specific] (3 credits)**

This directed reading/research approach allows a student to design and complete a reading plan in a content area that is of interest to the student, relevant to his or her academic program, and for which an equivalent course is not available for enrollment. All work will be done under the direction of a graduate mentor. The student is required to select readings, design a project based on the readings, and present a proposal detailing the books and other publications to be read and the project to be completed. All proposals must be approved by the mentor and the dean of the Graduate School of Theology, after which the student will complete the reading project and present a detailed project report.

Prerequisite or sequence recommendation:

A student must complete all core courses before enrolling for a directed reading. Credit for only one directed reading and research enrollment may be applied to a Master of Arts degree; credit for two may be applied to a Master of Divinity degree.

Requirements this course will fulfill:

Determined by the field of study and indicated by the alpha prefix for the course number (BIB, BNT, BOT, EDU, LDR, MIN, MIS, RES, THE).

Materials required:

To be selected by the student with approval of the mentor and dean.

*****7813/***7823 Specialized Reading and Research: [Discipline-Specific] (3 credits)**

This specialized reading/research approach requires a student to design and complete a plan that will enable him or her to fulfill specialized study requirements for the completion of a degree program or project under the supervision of a mentor and with approval of the dean of the Graduate School of Theology. Readings and research will meet a specific individual academic need and will not replace an existing course. The student must fulfill reading and research requirements that are academically equivalent to or greater than that for an individual course at the same level of studies. Assignment submissions will include book reviews, annotated bibliographies, and reflective essays. Methodologies will reflect graduate-level academic performance that applies knowledge at the higher levels of the cognitive and affective domains.

Prerequisite or sequence recommendation:

A student must complete all core courses for the respective degree program before enrolling for a specialized reading. A student must complete at least two specialized reading and research courses in the area of his or her specialization to fulfill Doctor of Ministry degree requirements.

Requirements this course will fulfill:

Determined by the field of study and indicated by the alpha prefix for the course number (BIB, BNT, BOT, EDU, LDR, MIN, MIS, RES, THE).

Materials required:

To be selected by the student with approval of the mentor and dean or director of Doctoral Studies.
